The Correction of the First Exam in Social and Human Sciences

Activity One: Explain the following in your own words: (15 pts)

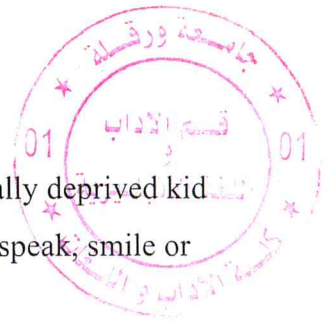

A. The difference between SOCIALIZATION and RESOCIALIZATION (4 points):
Socialization is one's ability to integrate and socialize with the people around him/ her in the way that helps him/her learn from them, communicate with them and become socially developed and elevated whereas Resocialization is a re-engineering of one's mentality and behaviour where a prisoner, a pupil, a lunatic or a soldier's personality is eroded and destroyed to meet the given institution and try to build a new character

B. The concept of the "Cultural Capital" in the Primary Socialization (4 points):
It stands as the first experiences with language, values, beliefs, behaviours and norms of society that a child acquires from his family being the first interaction and model of the external world for him. Thus, our families provide us with the **Cultural Capital** which is the non-financial assets that will help us succeed in the world.

C. The way NURTURE is responsible for shaping behaviour (4 pts):
Nurture is the way our environment upbringing and our experiences determine our behaviour as we are nurtured to behave in a certain way. The environment with all its components and aspects can shape surroundings of the individual.

D. As far as social development is concerned, isolation from social environment can damage social abilities (3pts):

Isolation can lead to cognitive and emotional issues because the individual's inability to develop and socialize. This kind of isolation can lead to feral behaviour. A Feral child means wild child.

For example, In 1938, Kingsley Davis discovered Anna an isolated and a socially deprived kid from any connection with the outside world. Consequently, she was unable to speak, smile or move, and because she could not imitate or cope with human behaviour.

Activity Two: Say True or False (5 pts):

1. Total Institutions are organizations that help us socialize and better develop. FALSE
2. Nature refers to genetics and to all the factors that are inherited, it has to do with beauty, intelligence as well as character TRUE
3. Secondary Socialization is a class- related behaviour that one needs to copy from his/her social class. FALSE
4. A deviant behaviour is a type of behaviour that can be conducted by parental and social FALSE
5. Any Genetic mutation can be responsible for mental disorders, schizophrenia, delayed and retarded brain developments. TRUE
